

Images questionnaire

This is about which images we will use on www.clearthoughts.info

This is a website offering clear information about learning disability and mental health.

We would like to know which style(s) you would like us to use.

Which of these images do you think most matches what it is trying to describe.

We know that this is not a simple thing to do.

But we would like to say which style of image you like best.

We can use the same style of images throughout the website or 'mix and match'.

(Please note that the Change images which are black and white can be done in colour for the website if people prefer that)

Please feel free to send any comments or suggestions.

You do not need to use this form to let us know what you think. Use whatever you like to let us know. More than one person can give feedback on the same form

We would like to have comments in before 17th March if possible.

Thank you for your help.
