Free e-learning tool available to NHS organisations within London

NHS London is pleased to announce that it is making available free an e-learning tool aimed at improving patient care and safety for patients who are vulnerable.

Providing high quality care for vulnerable patients

The module is suitable for all NHS clinical staff working with vulnerable people in acute hospital, community or primary healthcare settings.

It sets the best practice and legal frameworks including:

- Making reasonable adjustments
- The Mental Capacity Act (2005)
- The Equality Act (2010)
- Supporting family carers
- Supporting patients with learning disabilities or dementia

Go to: www.elearningrepository.nhs.uk/

Search for: Providing High Quality Care

- You will need to log in with an Athens account to view or download the module.
- Alternatively, the following link can be used in the NLMS to add the course as local content:
