For more information on our national services please visit www.national.slam.nhs.uk

Meeting the mental health needs of adults with learning disabilities

Training opportunities to develop a competent and capable support team
www.national.slam.nhs.uk

Welcome

The Estia Centre is a training, research and development resource for those who support adults with learning disabilities and additional mental health needs. The Estia Centre is an integral part of the local services for people with learning disabilities provided by the South London and Maudsley NHS Foundation Trust.

The Estia Centre aims to support the development of a competent workforce, from support staff to experienced managers and from a variety of services. By working in close collaboration with clinical services, we aim to improve the care of people with learning disabilities, especially those with additional mental health needs, through evidence-based practice.

Training workshops

Course	Description	Details
Introduction to the mental health needs of people with learning disabilities	This workshop will provide staff with an understanding of the mental health needs of people with learning disabilities. It will focus on recognising mental health problems, the assessment process and an overview of interventions. It will also explore how to promote the mental health of people with learning disabilities.	Duration
		1 day
		Cost
		£500 per workshop plus expenses
Advanced mental health needs of people with learning disabilities	This event will provide an in-depth look at specific mental health problems, including personality disorder. Participants will gain an understanding of mental health legislation and Care Programme Approach (CPA). Staff will get the opportunity to explore complex case scenarios, applying knowledge gained to practical situations.	Duration
		1 day
		Cost
		£500 per workshop plus expenses
The mental capacity act and people with learning disabilities, for managers	Health and social care professionals are required to adhere to the Mental Capacity Act (2005). This workshop explores the legal requirements in relation to assessing capacity, making best interest decisions and providing care or treatment to people who lack capacity.	Duration
		1 day
		Cost
		£650 per workshop plus expenses
The mental capacity act and people with learning disabilities, for support workers	This workshop explores how people with learning disabilities can be supported to make their own decisions. It will provide information on the process involved when people lack capacity to make particular decisions.	Duration
		1 day
		Cost
		£500 per workshop plus expenses
		Maximum capacity
		20 people per workshop
		Maximum capacity
		20 people per workshop

Course	Description	Details
Risk management and assessment for people with learning disabilities	Taking risks is fundamental to quality of life and people with learning disabilities should be supported to take reasonable risks safely. This workshop will enable staff to contribute to the assessment and management of risk in people with learning disabilities. The participants will explore what risk is, why it is assessed and the importance of taking risks.	Duration
		1 day
		Cost
		£500 per workshop plus expenses
Dementia and people with learning disabilities	This workshop provides participants with an understanding of the mental health needs of older people with learning disabilities, with a particular focus on dementia. The participants will develop awareness of the signs and symptoms of dementia and depression and an understanding of the assessment process. They will also enhance their knowledge of how to provide appropriate support for people with learning disabilities and dementia.	Duration
		1 day
		Cost
		£500 per workshop plus expenses
Challenging behaviour and people with learning disabilities	This workshop will provide an overview of current approaches to supporting people whose behaviour is challenging. Participants will enhance their understanding of the causes of challenging behaviour and the importance of effective communication. This workshop explores the assessment of challenging behaviour and provides an awareness of a variety of interventions available, emphasising the importance of teamwork and consistency.	Duration
		1 day
		Cost
		£500 per workshop plus expenses
Autism and people with learning disabilities	This training event will enable participants to increase their understanding of autism and to gain greater insights into the needs of this group of individuals. The workshop tackles the question: 'what is autism?' and explores the experiences of people with autism and the difficulties they may face. The training will explore the implications of autism on lifestyles, living environments, the provision of services and how to support people with learning disabilities and autism.	Duration
		1 day
		Cost
		£500 per workshop plus expenses
		Maximum capacity
		20 people per workshop
		Maximum capacity
		20 people per workshop
