

Acting for Stage

The 'Acting for Stage' Academy programme gives each artist who enrolls the exciting opportunity to develop their tools as an actor. This course will allow you to develop skills in voice, self-expression and movement. You will work as part of a team to create a play in ten days.

Your live performance will be showcased to an invited audience in our brand new fully equipped theatre space.

Singing and Music Production

The 'Singing and Music Production' Academy programme gives you the opportunity to develop your singing skills and techniques with the support of a singing coach. You will also have the opportunity to write or co-write your own songs, alongside other vocal artists, and to take part in the production of your own

CD. You will work together with the other artists to arrange a gig night or concert, where you can showcase your work to a live audience, plus much much more!
