Touch & Movement .....	20

## Advocacy

Longley, S., & Collins, G. J. (1994). The development of a non-verbal satisfaction measure for use with people who have severe or profound learning disabilities. *British Journal of Developmental Disabilities*, *XL(79)*, 143-149.

Porter, J., Ouvry, C., Morgan, M., & Downs, C. (2001). Interpreting the communication of people with profound and multiple learning difficulties. *British Journal of Learning Disability*, *29(1)*, 12-16.

Ware, J. (2004). Ascertaining the views of people with profound and multiple learning disabilities. *British Journal Learning Disability*, *32(4)*, 175-179.

## Arts & Multi-sensory

- Ashby, M., Lindsay, W. R., Pitcaithly, D., Broxholme, S., & Geelen, N. (1995). Snoezelen: Its effects on concentration and responsiveness in people with profound multiple handicaps. *British Journal of Occupational Therapy*, 58(7), 303-307.
- Brodin, J. (2005). Diversity of aspects on play in children with profound multiple disabilities. *Early Child Development and Care*, 175, 635-646.
- Bunning, K. (1998). To engage or not to engage? Affecting the interactions of learning disabled adults. *International Journal of Language and Communication Disorders*, 33(Supplement), 386-391.
- Cuvo, A. J., May, M. M., & Post, T. M. (2001). Effects of living room, Snoezelen room, and outdoor activities on stereotypic behavior and engagement by adults with profound mental retardation. *Research in Developmental Disabilities*, 22, 183-204.
- Graham, J. (2004). Communicating with the uncommunicative: music therapy with pre-verbal adults. *British Journal Learning Disability*, 32(1), 24-29.
- Hogg, J., Cavet, J., Lambe, L., & Smeddle, M. (2001). The use of 'Snoezelen' as multisensory stimulation with people with intellectual disabilities: a review of the research. *Research in Developmental Disabilities*, 22, 353-372.
- Lindsay, W. R., Pitcaithly, D., Geelen, N., Buntin, L., Broxholme, S., & Ashby, M. (1997). A comparison of the effects of four therapy procedures on concentration and responsiveness in people with profound learning disabilities. *Journal of Intellectual Disability Research*, 41(3), 201-207.
- Logan, K. R., Jacobs, H. A., Gast, D. L., Smith, P. D., Daniel, J., & Rawls, J. (2001). Preferences and reinforcers for students with profound multiple disabilities: can we identify them? *Journal of Developmental and Physical Disabilities*, 13(2), 97-122.
- Matson, J. L., Bamburg, J. W., & Smalls, Y. (2004). An analysis of Snoezelen equipment to reinforce persons with severe or profound mental retardation. *Research in Developmental Disabilities*, 25(1), 89-95.
- Rainey Perry, M. M. (2003). Relating improvisational music therapy with severely and multiply disabled children to communication development. *Journal of Music Therapy*, XL(3), 227-246.
- Shapiro, M., Parush, S., Green, M., & Roth, D. (1997). The efficacy of the "Snoezelen" in the management of children with mental retardation who exhibit maladaptive behaviours. *British Journal of Developmental Disabilities*, 43(2), 140-155.
- Singh, N. N., Lancioni, G. E., Winton, A. S. W., Molina, E. J., Sage, M., Brown, S., et al. (2004). Effects of Snoezelen room, activities of daily living skills training, and vocational skills training on aggression and self-injury by adults with mental

retardation and mental illness. *Research in Developmental Disabilities*, 25(3), 285-293.

Vlaskamp, C., de Geeter, K. I., Huijsmans, L. M., & Smit, I. H. (2003). Passive activities: the effectiveness of multisensory environments on the level of activity of individuals with profound multiple disabilities. *Journal of Applied Research in Intellectual Disabilities*, 16, 135-143.

Vlaskamp, C., & Nakken, H. (1999). Missing in execution therapies and activities for individuals with profound multiple disabilities. *British Journal of Developmental Disabilities*, 45(2), 99-109.

## Communication & Behaviour

- Arthur, M. (2004). Patterns amongst behavior states, sociocommunicative, and activity variables in educational programs for students with profound and multiple disabilities. *Journal of Developmental and Physical Disabilities, 16*(2), 125-149.
- Barber, M. (2007). Imitation, interaction and dialogue using Intensive Interaction: tea party rule. *Support for Learning, 22*(3), 124-130.
- Bartlett, C., & Bunning, K. (1997). The importance of communication partnerships: A study to investigate the communicative exchanges between staff and adults with learning disabilities. *British Journal Learning Disability, 25*, 148-152.
- Bunning, K. (1998). To engage or not to engage? Affecting the interactions of learning disabled adults. *International Journal of Language and Communication Disorders, 33*(Supplement), 386-391.
- Caldwell, P. (1997). 'Getting in touch' with people with severe learning disabilities. *British Journal of Nursing, 6*(13), 751-756.
- Caldwell, P. (2006). Speaking the other's language: Imitation as a gateway to relationship. *Infant and Child Development, 15*, 275-282.
- Cannella, H. I., O'Reilly, M. F., & Lancioni, G. E. (2005). Choice and preference assessment research with people with severe to profound developmental disabilities: a review of the literature. *Research in Developmental Disabilities, 26*, 1-15.
- Carnaby, S. (2007). Developing good practice in the clinical assessment of people with profound intellectual disabilities and multiple impairment. *Journal of Policy and Practice in Intellectual Disabilities, 4*(2), 88-96.
- Cirrin, F. M., & Rowland, C. M. (1995). Communicative assessment of nonverbal youths with severe/profound mental retardation. *Mental Retardation, 23*(2), 52-62.
- Dennis, R. (2002). Nonverbal narratives: Listening to people with severe intellectual disability. *Research and Practice for Persons with Severe Disabilities, 27*(4), 239-249.
- Dobson, S., Dodsworth, S., & Miller, M. (2000). Problem solving in small multidisciplinary teams: a means of improving the quality of the communication environment for people with profound learning disability. *British Journal of Learning Disability, 28*(1), 25-30.
- Duker, P. C., & Jutten, W. (1997). Establishing gestural yes-no responding with individuals with profound mental retardation. *Education and Training in Developmental Disabilities, 32*(1), 62-75.

- Elgie, S., & Maguire, N. (2001). Intensive Interaction with a woman with multiple and profound disabilities: A case study. *Tizard Learning Disability Review*, 6(3), 18-24.
- Ferguson, D. L. (1994). Is communication really the point? Some thoughts on interventions and membership. *Mental Retardation*, 32(1), 7-18.
- Finlay, W. M. L., Antaki, C., Walton, C., & Stribling, P. (2008). The dilemma for staff in "playing a game" with a person with profound intellectual disabilities: empowerment, inclusion and competence in interactional practice. *Sociology of Health & Illness*, 30(4), 531-549.
- Firth, G. (2006). Intensive Interaction: a research review. *Mental Health and Learning Disabilities Research and Practice*, 3(1), 53-63.
- Firth, G., Elford, H., Leeming, C., & Crabbe, M. (2008). Intensive Interaction as a novel approach in social care: Care staff's views on the practice change process. *Journal of Applied Research in Intellectual Disabilities*, 21(1), 58-69.
- Gleason, J. J. (1993). The creation of meaning: what persons with severe or profound multiple developmental disabilities do in context. *Australia and New Zealand Journal of Developmental Disabilities*, 18(3), 157-167.
- Golden, J., & Reese, M. (1996). Focus on communication: improving interaction between staff and residents who have severe or profound mental retardation. *Research in Developmental Disabilities*, 17(5), 363-382.
- Graham, J. (2004). Communicating with the uncommunicative: music therapy with pre-verbal adults. *British Journal Learning Disability*, 32(1), 24-29.
- Granlund, M., Björck-Åkesson, E., Brodin, J., & Olsson, C. (1995). Communication intervention for persons with profound disabilities: A Swedish perspective. *Augmentative and Alternative Communication*, 11(1), 49-59.
- Granlund, M., & Olsson, C. (1991). Investigating communicative functions in profoundly retarded persons: A comparison of two methods of obtaining information about communicative behaviours. *Mental Handicap Research*, 6(2), 112-119.
- Granlund, M., & Olsson, C. (1999). Efficacy of communication intervention for presymbolic communicators. *Augmentative and Alternative Communication*, 15, 25-37.
- Granlund, M., Steensson, A. L., Sundin, M., & Olsson, C. (1992). Inservice training in collaborative problem solving and goal setting for special education teacher consultants working with profoundly impaired persons. *British Journal of Mental Subnormality*, 38(Part 2), 94-113.
- Granlund, M., Terneby, J., & Olsson, C. (1992a). Creating communicative opportunities through a combined in-service training and supervision package. *European Journal of Special Needs Education*, 7(3), 229-252.

- Granlund, M., Terneby, J., & Olsson, C. (1992b). Subject characteristics and the communicative environment of profoundly retarded adults. *Scandinavian Journal of Educational Research*, 36(4), 323-338.
- Grove, N., Bunning, K., Porter, J., & Olsson, C. (1999). See what I mean: interpreting the meaning of communication by people with severe and profound intellectual disabilities. *Journal of Applied Research in Intellectual Disabilities*, 12(3), 190-203.
- Guy, B., Guess, D., & Mulligan, M. (1993). Classroom procedures for the measurement of behaviour state among students with profound disabilities. *Journal of the Association for Persons with Severe Handicaps*, 18(1), 52-60.
- Hart, P. (2006). Using imitation with congenitally deafblind adults: Establishing meaningful communication partnerships. *Infant and Child Development*, 15, 263-274.
- Healy, D., & Noonan Walsh, P. (2007). Communication among nurses and adults with severe and profound intellectual disabilities: Predicted and observed strategies. *Journal of Intellectual Disabilities*, 11(2), 127-141.
- Hogg, J., Reeves, D., Roberts, J., & Mudford, O. C. (2001). Consistency, context and confidence in judgements of affective communication in adults with profound intellectual and multiple disabilities. *Journal of Intellectual Disability Research*, 45(1), 18-29.
- Iacono, T., Carter, M., & Hook, J. (1998). Identification of intentional communication in with severe and multiple disabilities. *Augmentative and Alternative Communication*, 14, 102-114.
- Ivancic, M. T., & Bailey, J. S. (1996). Current limits to reinforcer identification for some persons with profound multiple disabilities. *Research in Developmental Disabilities*, 17(1), 77-92.
- Janssen, M. J., Riksen-Walraven, J. M., & van Dijk, J. P. M. (2006). Applying the diagnostic intervention model for fostering harmonious interactions between deaf-blind children and their educators: A case study. *Journal of Visual Impairment & Blindness*, 100(2), 91.
- Jones, F., Pring, T., & Grove, N. (2002). Developing communication in adults with profound and multiple learning difficulties using objects of reference. *International Journal of Language and Communication Disorders*, 37(2), 173-184.
- Kellett, M. (2000). Sam's story: evaluating Intensive Interaction in terms of its effect on the social and communicative ability of a young child with severe learning difficulties. *Support for Learning*, 15(4), 165-171.
- Lancioni, G. E., Singh, N. N., O'Reilly, M. F., Sigafoos, J., Didden, R., Oliva, D., et al. (2007). Effects of microswitch-based programs on indices of happiness of students with multiple disabilities: A new research evaluation. *American Journal on Mental Retardation*, 112(3), 167-176.

- Lindsay, W. R., Black, E., Broxholme, S., Pitcaithly, D., & Hornsby, N. (2001). Effects of four therapy procedures on communication in people with profound intellectual disabilities. *Journal of Applied Research in Intellectual Disabilities*, 14, 110-119.
- Lohrmann-O'Rourke, S., & Browder, D. M. (1998). Emperically based methods to assess the preferences of individuals with severe disabilities. *American Journal of Mental Retardation*, 103(2), 146-161.
- Lovell, D. M., Jones, R. S. P., & Ephraim, G. (1998). The effect of intensive interaction on the sociability of a man with severe intellectual disabilities. *International Journal of Practical Approaches to Disability*, 22(2/3), 3-9.
- McBrien, J., & Weightman, J. (1980). The effect of room management procedures on engagement of profoundly handicapped children. *British Journal of Mental Subnormality*, 26, 38 - 53.
- McLarty, M. (1997). Putting objects of reference in context. *European Journal of Special Needs Education*, 12(1), 12-20.
- McLean, J. E., McLean, L. K., Brady, N. C., & Etter, R. (1991). Communication profiles of two types of gesture using nonverbal persons with severe to profound mental retardation. *Journal of Speech and Hearing Research*, 34(2), 294-308.
- Mirenda, P., Iacono, T., & Williams, R. (1990). Communication options for persons with severe and profound disabilities: state of the art and future directions. *Journal of the Association for Persons with Severe Handicaps*, 15(1), 3-21.
- Nakken, H., & Vlaskamp, C. (2002). Joining forces: Supporting individuals with profound multiple learning disabilities. *Tizard Learning Disability Review*, 7(3), 10-15.
- Nelson, C., van Dijk, J., McDonnell, A. P., & Thompson, K. (2002). A framework for understanding young children with severe and multiple disabilities: The van Dijk approach to assessment. *Research and Practice for Persons with Severe Disabilities*, 27(2), 97-111.
- Nind, M. (1996). Efficacy of Intensive Interaction: developing sociability and communication in people with severe and complex learning difficulties using an approach based on caregiver-infant interaction. *European Journal of Special Needs Education*, 11(1), 48-66.
- Nind, M., & Kellett, M. (2002). Responding to individuals with severe learning difficulties and stereotyped behaviour: challenges for an inclusive era. *European Journal of Special Needs Education*, 17(3), 265-282.
- Ogletree, B. T., Fischer, M. A., & Turowski, M. (1996). Assessment targets and protocols for nonsymbolic communicators with profound disabilities. *Focus on Autism and Other Developmental Disabilities*, 11(1), 53-58.
- Ogletree, B. T., Wetherby, A. M., & Westling, D. L. (1992). Profile of the prelinguistic intentional communicative behaviors of children with profound mental retardation. *American Journal on Mental Retardation*, 97(2), 186-196.

- Olsson, C. (2005). The use of communicative functions among pre-school children with multiple disabilities in two different setting conditions: Group versus individual patterns. *Augmentative and Alternative Communication*, 21(1), 3-18.
- Park, K. (1997). How do objects become objects of reference? A review of the literature on objects of reference and a proposed model for their use of objects in communication. *British Journal of Special Education*, 24(3), 108-114.
- Porter, J., Ouvry, C., Morgan, M., & Downs, C. (2001). Interpreting the communication of people with profound and multiple learning difficulties. *British Journal of Learning Disability*, 29(1), 12-16.
- Rainey Perry, M. M. (2003). Relating improvisational music therapy with severely and multiply disabled children to communication development. *Journal of Music Therapy*, XL(3), 227-246.
- Richards, S. B., & Richards, R. Y. (1997). Implications for assessing biobehavioral states in individuals with profound disabilities. *Focus on Autism and Other Developmental Disabilities*, 12(2), 79-86.
- Rowland, C., & Schweigert, P. (1989). Tangible symbols: symbolic communication for individuals with multisensory impairments. *Augmentative and Alternative Communication*, 5(4), 226 - 234.
- Rowland, C. M., & Schweigert, P. (2000). Tangible symbols, tangible outcomes. *Augmentative and Alternative Communication*, 16, 61-78.
- Samuel, J., & Pritchard, M. (2001). The ignored minority: Meeting the needs of people with profound learning disability. *Tizard Learning Disability Review*, 6(2), 34-44.

- Saunders, M. D., Timler, G. R., Cullinan, T. B., Pilkey, S., Questad, K. A., & Saunders, R. R. (2003). Evidence of contingency awareness in people with profound multiple impairments: response duration versus response rate indicators. *Research in Developmental Disabilities*, 24(4), 231-245.
- Singh, N. N., Lancioni, G. E., Winton, A. S. W., Wahler, R. G., Singh, J., & Sage, M. (2004). Mindful caregiving increases happiness among individuals with profound multiple disabilities. *Research in Developmental Disabilities*, 25, 207-218.
- Snell, M. E. (2002). Using dynamic assessment with learners who communicate nonsymbolically. *Augmentative and Alternative Communication*, 18, 163-175.
- Stillman, R., Williams, C., & Linam, A. (1997). Communications directed to students with severe and profound disabilities. *Focus on Autism and Other Developmental Disabilities*, 12(3), 130-141.
- Tota, A., Lancioni, G. E., Singh, N. N., O'reilly, M. F., Sigafos, J., & Oliva, D. (2006). Evaluating the applicability of optic microswitches for eyelid responses in

students with profound multiple disabilities. *Disability and Rehabilitation: Assistive Technology*, 1(4), 217-223.

Watson, J., & Fisher, A. (1997). Evaluating the effectiveness of Intensive Interactive teaching with pupils with profound and complex learning difficulties. *British Journal of Special Education*, 24(2), 80-87.

Wilder, J., & Granlund, M. (2003). Behaviour style and interaction between seven children with multiple disabilities and their caregivers. *Child: Care, Health & Development*, 29(6), 559-567.

## Day Opportunities & Inclusion

- Hiemstra, S. J., Vlaskamp, C., & Wiersma, L. A. (2007). Individual focus in an activity centre: an observational study among persons with profound and multiple disabilities. *Education and Training in Developmental Disabilities, 42*(1), 14-23.
- Hogg, J., Juhlberg, K., & Lambe, L. (2007). Policy, service pathways and mortality: a 10-year longitudinal study of people with profound intellectual and multiple disabilities. *Journal of Intellectual Disability Research, 51*(5), 366-376.
- Leaning, B., & Watson, T. (2006). From the inside looking out - an Intensive Interaction group for people with profound and multiple learning disabilities. *British Journal of Learning Disabilities, 34*(2), 103-109.
- Rose, J., Davis, C., & Gotch, L. (1993). A comparison of the services provided to people with profound and multiple disabilities in two different day centres. *British Journal of Developmental Disabilities, 34*(2), 83-94.
- Saxby, H., Thomas, M., Felce, D., & De Kock, U. (1986). The use of shops, cafes and public houses by severely and profoundly mentally handicapped adults. *British Journal of Mental Subnormality, 32*, 69-81.
- Vlaskamp, C., Hiemstra, S. J., & Wiersma, L. A. (2007). Becoming aware of what you know or need to know: Gathering client and context characteristics in day services for persons with profound intellectual and multiple disabilities. *Journal of Policy and Practice in Intellectual Disabilities, 4*(2), 97-103.
- Vlaskamp, C., Hiemstra, S. J., Wiersma, L. A., & Zijlstra, B. J. H. (2007). Extent, duration, and content of day services activities for persons with profound intellectual and multiple disabilities. *Journal of Policy and Practice in Intellectual Disabilities, 4*(2), 152-159.
- Vlaskamp, C., & Nakken, H. (1999). Missing in execution therapies and activities for individuals with profound multiple disabilities. *British Journal of Developmental Disabilities, 45*(2), 99-109.
- Zijlstra, H. P., & Vlaskamp, C. (2005). Leisure provision for persons with profound intellectual and multiple disabilities: quality time or killing time? *Journal of Intellectual Disability Research, 49*(6), 434-448.

## Education

- Anderson, C. (2006). Early communication strategies: using video analysis to support teachers working with preverbal pupils. *British Journal of Special Education*, 33(3), 114-120.
- Arthur-Kelly, M., Bochner, S., Center, Y., & Mok, M. (2007). Socio-communicative perspectives on research and evidence-based practice in the education of students with profound and multiple disabilities. *Journal of Developmental and Physical Disabilities*, 19(3), 161-176.
- Arthur, M. (2003). Socio-communicative variables and behavior states in students with profound and multiple disabilities: descriptive data from school settings. *Education and Training in Developmental Disabilities*, 38(2), 200-219.
- Arthur, M. (2004). Patterns amongst behavior states, sociocommunicative, and activity variables in educational programs for students with profound and multiple disabilities. *Journal of Developmental and Physical Disabilities*, 16(2), 125-149.
- Butterfield, N., & Arthur, M. (1995). Shifting the focus: emerging priorities in communication programming for students with a severe intellectual disability. *Education and Training in Mental Retardation and Developmental Disabilities*, 30, 41-50.
- Culham, A. (2004). Getting in touch with our feminine sides? Men's difficulties and concerns with doing Intensive Interaction. *British Journal of Special Education*, 31(2), 81-88.
- Detheridge, T. (1997). Bridging the communication gap (for pupils with profound and multiple learning difficulties). *British Journal of Special Education*, 24(1), 21-26.
- Foreman, P., Arthur-Kelly, M., Pascoe, S., & Smyth King, B. (2004). Evaluating the educational experiences of students with profound and multiple disabilities in inclusive and segregated classroom settings: An Australian perspective. *Research and Practice for Persons with Severe Disabilities*, 29(3), 183-193.
- Foreman, P., & Arthur, M. (2002). Parental perspectives on educational programmes for students with high support needs. *European Journal of Special Needs Education*, 17(2), 175-184.
