Re.: Request for donation of wheel chairs.

Dear Sirs,

Further to our telephone conversation, I would like to confirm what we discussed regarding the matter of the reference.

As I explained to you, our Government has organized a Solidarity Programme for Disabled People, who at the moment in Peru, are in much need of technical equipment such as prosthesis, wheel chairs or any other kind of help of this type.

At this first stage of the programme, we have been instructed to concentrate our efforts in looking for donations of wheel chairs, which are extremely needed for adults and children, who are suffering tremendously for the lack of a proper rehabilitation treatment.

We appeal to your generosity and if you feel you may be able to help us by donating any kind of this type of medical equipment, it would be greatly appreciate it. The delivery will be at our expenses.

Thanking you for your kind and prompt attention I am sure you will give to this matter, I remain,

Yours faithfully,

Luis Armando Monteagudo-Pacheco
Cónsul General of Peru
