Jane Upperton *Researcher, Upperton Associates*

Sponsored by

Programme monitored by

Leading the way in Assistive Technology

Life enhancing technology to support people with learning disabilities

Date: Thursday 31 January 2013

Venue: Holiday Inn, Liverpool City Centre, Lime Street, Liverpool, LI 1NQ

Programme

10.00am Registration

10.30am Chair's welcome and introduction

Chair: **Professor Tony Holland**, *Cambridge Intellectual and Developmental Disabilities Group, Cambridge University*

10.45am Embracing technology

- Examples of outcomes using an ethical approach to Assistive Technology
- Meeting the challenges of changing needs and new structures – Clinical Commissioning Groups
- The self-service model – access to Assistive Technology

Steve Barnard, *Director of Information Systems, Hft*

11.05am Keynote address

- Ensuring the quality of services
- Challenges of the learning disability sector
- Role and use of assistive technology

11.25am Q&A and discussion

11.35am Refreshments

12.00pm Workshop Sessions

A Assistive Technology in Practice

- This workshop will demonstrate, through the use of case studies, the benefits that Assistive Technology can bring to people with learning disabilities.
- It will explore the reasons why it is important to take a person centred approach when using technology with people
- It will include examples of how it can support people no matter what their level of need.

Emma Nichols, *Personalised Technology Manager, Hft*

B Understanding the benefits of Assistive Technology and assess its impact

- Need for research in AT
- Impact Assessment methodology
- Outcomes of the Impact Assessment

Jane Upperton, *Researcher, Upperton Associates*

1.00pm Lunch

1.45pm Workshop Sessions (repeated)

2.30pm Refreshments

2.55pm The integration of technology into our daily lives, to achieve better outcome for everyone

- Challenges to wider society – demographics and the ageing population
- TSB perspective on some of the 'ways forward'
- Involvement of third sector organisations

Jackie Marshall Cyrus, *Technology Strategy Board*

3.15pm The Feel Good Factory: Managing health and social care needs with life enhancing technology

- What is the 'Feel Good Factory'?
- Why Hft?
- How do we work together?

Andy Hull, *'DALLAS' (Delivering Assisted Living Lifestyles At Scale) – Feel Good Factory, Liverpool*

3.35pm Technology and inclusion

- Challenges for the EU
 - Inclusion for all
 - Opportunities for the future
- A representative from the European Commission

3.55pm Q&A and discussion

4.15pm Chair's summary and conference close

When booking, please wait for written confirmation before arranging travel.

Terms and conditions

Cancellation and refund policy

All cancellations will be subject to a £50 administration fee, if received in writing 14 days before the event.

We regret that any cancellations after this date cannot be refunded, but substitute delegates are welcome at any time.

Payment

30 days either from date of invoice or before the conference (whichever sooner). Payment must be received prior to the conference. VAT correct at time of printing.

About the conference

The conference is intended to raise the profile of how technology can support independence and safety for people with learning disabilities and their families.

We will look at on how technology can be used to support all levels of need with a particular focus on multiple and complex needs. We also seek to address the barriers that affect access and use of the technology. The move to Individual and Personal Budgets means people with learning disabilities and their carers need to be aware of how Assistive Technology can enhance their lives.

Aims of the conference

- Access – attendees will have a better understanding of their role in supporting people to access expertise and knowledge of Assistive Technology. Attendees will also have an understanding of the issues and commonly held misconceptions around AT.
- Understanding of the benefits – attendees will have a better understanding of the support that AT can provide and also how it can help achieve value for money
- Approach– attendees will have a better understanding of how an ethical approach can create better outcomes with the use of AT.

Conference convenors

Hft is a leading national charity that supports people with learning disabilities. Every day our creative and resourceful thinking helps people to get the most out of life.

Founded by pioneering families fifty years ago, we continue to work in partnership with the people we support and their family and friends to understand their individual needs and goals.

Our staff expertise includes supporting people with complex needs, challenging behaviour and specific syndromes like autism spectrum disorders.

Our person centred support, combined with our leadership in using personalised technology, enables people with learning disabilities to live more fulfilled lives whatever the level of need.

Our new look, updated Smart House will be on display during lunch. Don't miss your chance to see this unique, purpose built 'mock' flat at 'Leading the way in Assistive Technology'. The Smart House has been used by Hft since 2009, to provide visitors with real first-hand experience of how Personalised Technology can be used to enhance independence and safety for people with learning disabilities whatever the level of need.

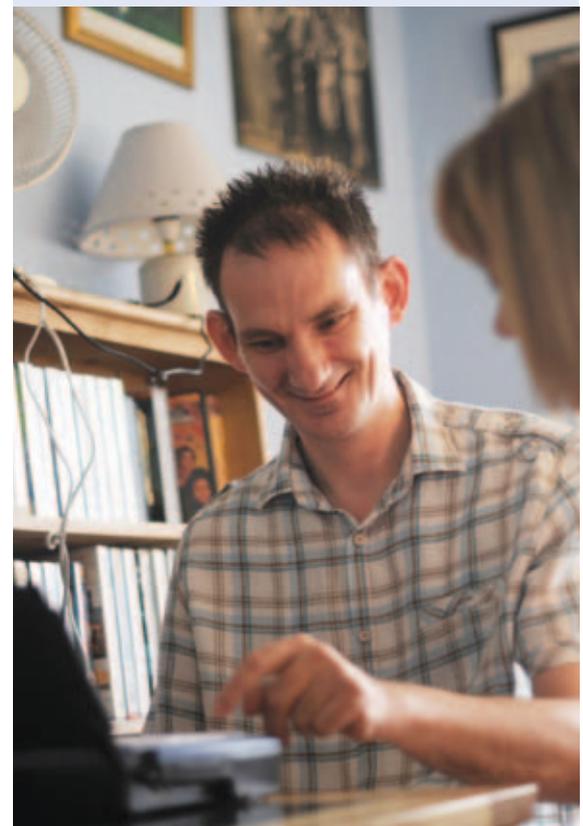

In 2012, we re-launch our new look Smart House at Learning Disability Today exhibition. The house features all new, up to date technology and devices, and improved signage and information to make it easier to access for all. We have also installed a new theatre at the back, where you can watch and learn about real experiences of people with learning disabilities and how Assistive Technology has helped change their lives.

Key themes

- Independence and safety for all
- How Assistive Technology (AT) can support all levels of need including multiple and complex needs
- The right way to implement Assistive Technology
- Access and 'mainstreaming' of AT including promotion of the benefits of devices and systems working together
- Vision for the future of Assistive Technology

Who should attend?

- Health and social care commissioners
- Health and social care professionals
- Carers (whether family members, supporters or advocates)
- Clinicians – specialist medics
- Service Providers

Continuous professional development

Professionals within the social care sector are required to undertake Continuous Professional Development (CPD). Delegates can gain CPD points from attending our conferences and exhibitions. This conference may help towards your knowledge requirements at Quality Credit Framework level (QCF) level 3 – 8.

About Pavilion

Pavilion is the leading publisher and event organiser for those working in social and healthcare fields, whether they work in the statutory, private or voluntary sectors. We publish over 200 training packs, Mental Health Today and Learning Disability Today magazines.

Promotional opportunities

For more information about promotional opportunities at this conference, such as exhibiting and including your promotional materials in the conference delegate packs, please contact: Graham Hoare, Customer Relations Manager, Pavilion
Tel: 01273 434 938
Email: grahamh@pavpub.com

Unable to attend?

Conference papers, as presented to the delegates on the day, are available on CD-ROM after the conference for £60 + VAT. This useful reference will include: available speaker papers, speaker biographies and any additional inserts.

Free bursaries

Pavilion recognises the contribution people from across health and social care make to our conferences. To ensure our conferences are accessible to people using services, unwaged/family carers, and students, there are up to five free places available at each conference.

To apply, please write to us by post or email stating why you would like to attend this particular conference.
