# This congress will bring together current innovative ideas, projects and practices that already exist in different countries for the improvement of healthcare delivery to people with intellectual disability (id)

Speakers from all over the world will update us on

- best practices in primary and acute care for people with **id**
- specialist training in intellectual disability medicine in different countries
- WHO project on intellectual disability
- European Commission addressing health inequalities in the EU
- international POMONA project
- current state of Valuing People
- MENCAP's 'treat me right' campaign
- human rights issues in intellectual disability medicine

...and much more!

If you would like to share your best practice innovations in intellectual disability medicine, if you want to hear about new ideas in healthcare delivery or if you just want to help to improve the health of people with **id** in your country...
