

## Calling all nurses and midwives in England! Have YOU improved the quality of care for your patients and reduced costs?

If the answer is yes, (and we have a feeling it is) then you need to let your nursing and midwifery colleagues know so that they can do it too!

A search is on for The Top Ten High Impact Actions for Nursing and Midwifery - changes that you have already made within your organisation that have improved quality for patients and reduced costs that, if replicated nationally, would have a huge impact on the quality and cost of patient care. The top ten actions selected will be announced at the CNO's conference on November 11th.
