

Would you like to make your information more accessible to everyone?

## CHANGE can help!

CHANGE is a leading national equal rights organisation led by Disabled People.

We also provide a **bespoke service** for those wishing to develop their own information on subjects not covered below.

**At CHANGE we believe that having clear information gives people power and choices. We believe that all information should be accessible.**

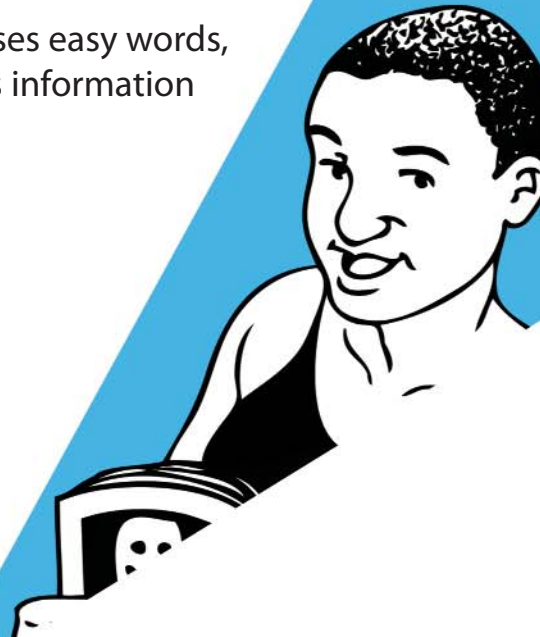

Accessible information is not just large print, or pictures with no writing. It uses easy words, with no jargon, and pictures to help show what the words mean. This makes information easier to understand.

### Accessible information is for everybody

**It can support:**

- people who have difficulty reading and understanding information
- people who have learning disabilities
- people who do not have English as a first language

CHANGE has developed a number of accessible resources for you to make your information easier to understand.
