**THE
NATIONAL
COUNCIL FOR
PALLIATIVE
CARE**

Dying with Difficulty

**Meeting the Palliative and End of Life Care Needs
of People with Multiple Conditions**

Population ageing is occurring at a rapid rate, producing a profile which is unique in our history. People are living longer with a range of co-existing conditions. This impacts on their palliative and end of life care needs and affects both the End of Life Care Strategy and NHS Next Stage review implementation.

This conference aims to:

- Identify some of the issues services face in meeting the palliative and end of life care needs of people with multiple conditions
- Identify the issues from the person and carer's perspective
- Explore solutions to meeting the needs of people with multiple conditions
- Provide examples of good practice so services can learn from each other
- Provide an important networking opportunity so that people can share ideas and expertise

31st March 2008, Park Crescent Conference Centre, London

Conference
supported by

AGE
Concern

HELP THE AGED WE WILL™

10.00 *Welcome*
Chair, Eve Richardson, Chief Executive, NCPC
