

Accredited Epilepsy Course

(Development in conjunction
with NeuroEducation)

epilepsy *action*

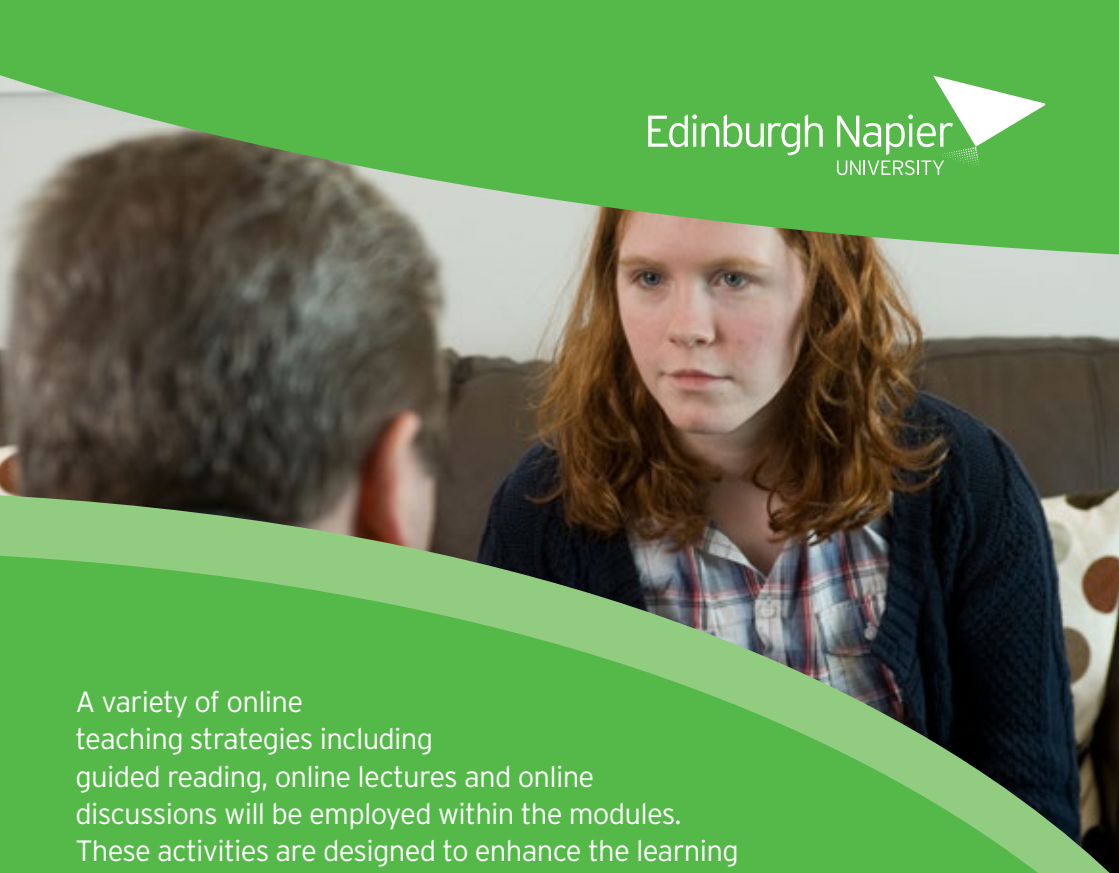

Graduate certificate in the care of people with epilepsy.

This epilepsy course will be suitable for all health care professionals within primary care, secondary care and the voluntary sector that work with people who have epilepsy.

This programme will only be delivered as a part time option by distance learning. You will complete three compulsory 20 credit modules:

- NMS 09147 Diagnosis and management of epilepsy
- NMS09146 Management of psychosocial issues in long term conditions
- NMS09152 Work based learning

The programme is offered over 3 trimesters throughout the academic year. Next course commences September 2014

A variety of online teaching strategies including guided reading, online lectures and online discussions will be employed within the modules. These activities are designed to enhance the learning experience by encouraging you to engage with the material in a meaningful way.

If you have a diploma in nursing you may be able to enrol on the BSc- option rich programme and complete the three 20 credit modules, thus obtaining a first degree.

Fees for 2013/14 for home and European Union students are £305.00 per 20 credit module, so £915.00 in total. These fees may increase slightly from April 2014.
