

Family Carers event
Wednesday 16th February, 2011
10.30 - 12.30

**North West Training and Development office,
Accrington.**

What do parents and other family carers think about the chances locally of people with a learning difficulty getting paid work? What are your questions and queries? How can local people make sure people with a learning difficulty don't slip down the priorities again?

- Do you have a success story in your family to tell us about?
- Do you have worries that your relative getting work will mean they will lose benefits?
