Gold Standards Framework (GSF)

(Links to KSF HWB7; C1)

The Gold Standards Framework (GSF) is a systematic evidence based approach to optimising the care for patients nearing the end of life delivered by generalist providers. It is concerned with helping people to live well until the end of life and includes care in the final years of life for people with any end stage illness in any setting.

This introductory session will explain the history of the GSF and the benefits of its implementation. It will explore the current situation and its effectiveness.

Learning Outcomes:

- Explain the history of GSF and how it was developed
- Discuss the aims of GSF
- Analyse implementation of GSF
- Explore local Initiatives in West Suffolk
