

# Children and Adults with Complex and Continuing Healthcare Needs

**20<sup>th</sup> March 2009**

This conference aims to address some of the key issues affecting children, young people and adults with complex and continuing healthcare needs and their families. Speakers include Dr Anne Hunt from the University of Central Lancashire, Dr Sue Kirk from the University of Manchester, Dr Dawit Mengistu of Agape Health Ltd, Janet Cobb from the Foundation for People with Learning Disabilities and John and Liz Goldsmith.

Recent investigations such as Mencap's 'Death by Indifference' and Sir Jonathan Michael's inquiry into access to healthcare for people with learning disabilities have revealed shocking stories of inequality, discrimination and premature death. This conference will take you through some of the key issues which must be understood in order to address these inequalities and achieve better outcomes for people with complex and continuing healthcare needs. A light lunch will be provided and email based information packs will be sent out prior to the event. Please see booking form overleaf - programme to follow.
