

The Scottish Healthy Care Network will be active in raising the profile of health as it relates to looked after children and young people in and leaving care. In doing so we will provide a strong voice in influencing health policy, planning and practice at a local and national level in Scotland.

YOU ARE INVITED – to a special meeting of the **Scottish Healthy Care Network**: *promoting the well being of children and young people in and leaving care.*

The Healthy Care Network is entering a key phase in its development and as a result a special meeting has been arranged to adopt our constitution and elect a management committee to serve the Healthy Care Network for the next 12 months.

The meeting will also follow our successful Network Meeting format where there will be invited speakers including health information, resources and updates of national and local interest to those involved in promoting the health and wellbeing of children and young people in and leaving care in Scotland. Our open-mic session will also provide you with an opportunity to network and share information with colleagues from across Scotland.

The Theme for this meeting will be Mental Health.

We also hope to be able to provide you with a preview of the new NHS Health Scotland A-Z health resource pack developed for staff and carers working with looked after and accommodated children in Scotland.

This meeting will also be a valuable opportunity for you to contribute to the ongoing development and plans for the Healthy Care Network in Scotland.
