The National Educational Advocacy Partnership Launch

Introduction

A group of independent specialists within the visual impairment (VI) sector have worked together to develop a national partnership for Educational Advocacy for young people who are visually impaired.

The Partnership is increasingly helping to ensure that all young people (0 - 25 years) with a visual impairment, who require Educational Advocacy, have the opportunity to receive support from an independent Educational Advocate, whose organisation is a member of the Partnership.

The Partnership has agreed best practice, qualifications, training and guidelines to ensure the consistent high standards of Educational Advocacy are met; and in this is supported by IPSEA.
