Commissioning Primary Care for People with a learning disability based on the Operating Framework 2008/09

This conference looks at how to commission inclusive Primary Care Services to address the health inequalities of people with learning disabilities.

Attend this event to receive expert guidance on tools available for local implementation:

- Hear about the vital signs relating to learning disabilities in the Operating Framework 2008/09.
- Gain best practice guidance on developing annual health-checks for people with learning disabilities based on the Primary Care Service Framework.
- Learn how to develop clinical capacity through the development of a GP with special interest framework.
- Receive guidance on Commissioning Specialist Learning Disability Health Services.
