Save 15% when you order your Tacpac 1 or Tacpac 2 with your booking and pay only £62.50

Sensory Learning through Tacpac[®]

Hilary Wainer, Founder and Lead Trainer, has spent a lifetime working in schools with children with a wide range of special needs. Before the days of the National Curriculum there were virtually no resources for people needing access to a sensory learning approach. The inspiration for Tacpac came to Hilary and her colleagues during this time.

Tacpac is highly successful in **enhancing sensory communication** through using the **power of music** (with Tacpac Cd's) combined with the **power of touch** and co-ordinated objects.

Hilary organises the Training Sessions personally, and either Hilary or one of her team would be happy to run a training session for you. **A full day training session focuses on all our senses**, what we know about them, and how we can use them.

Our sense of touch is paramount in Tacpac, and there is often an interesting discussion about how we have received 'touch' in the past, and how we would like to deliver it.

Our sense of music is equally important in Tacpac. We have lively debates when we remember how we have experienced music, and we explore how we can develop confidence in deepening musical experience for others.

The exciting bit comes when we learn to combine our two senses - touch and music - in an aware manner, through the use of Tacpac. We enhance communication by reinforcing trust, predictability, and above all FUN!

Team Around The Child - Remember when you're considering a Training Session, it is an excellent idea to get *everyone* involved, as this stimulates a great discussion from the different professional viewpoints. If you have Portage workers, Occupational Therapists, Health Visitors, Physiotherapists, Speech Therapists, Early Years workers, SENSS workers, Learning Disability Nurses etc. – that makes for a merry bunch!

Looking forward to hearing from you,

Hilary Wainer – info@tacpac.co.uk – 01865-716571
