WELCOME

Better mental health is on the horizon for persons with IDD

People with IDD belong in our World. This inclusive perspective is not already reality but a hopeful ethical statement. The fact that people with IDD are more vulnerable to mental health problems increases the risk that they will become excluded by society. It is therefore extremely important to reposition the relationship between mental health and IDD with a goal to reappraising all aspects. **'Inclusion' and Mental Health need an appropriate translation.**

Therefore we warmly invite representatives from a multitude of perspectives, approaches and cultures. You will encounter **350 colleagues from more than 27 different countries.** The Congress covers 30 topics within the theme of Mental Health : 8 keynotes, 5 solicited symposia, 190 papers clustered in 62 parallel symposia and workshops and 36 posters.

As a result, this conference will contribute not only to the sharing of knowledge, but also to its deepening and expansion. **Together we will promote better mental health for persons with IDD in a more inclusive world.**

We are delighted to meet you in Estoril!

On behalf of the Executive Board, with kind regards,

Johan De Groef

President of the European Association for Mental Health in Intellectual Disability 2011-2013.
Psychotherapist and General Manager VZW Zonneliel, Roosdaal Belgium

EUROPEAN ASSOCIATION FOR MENTAL HEALTH IN INTELLECTUAL DISABILITY

The purpose of the Association is international co-operation and exchange of knowledge and experience in the field of mental health for people who have intellectual disability with specific emphasis on coordinating and promoting scientific activities and improving standards of support throughout Europe.

In furtherance of this purpose the Association shall:

- organise international and regional congresses, conferences, symposia, workshops and courses.
- establish international exchange programmes for researchers, professional care givers, educators and public policy representatives.
- promote international collaborative research projects.
- influence policy at local, regional, national & international levels to promote mental health and social inclusion.

City of Estoril

Just 20 kilometers from Lisbon and its International Airport, the region is also serviced by an excellent network of land transportation that includes service to any city you wish to visit.

Following the coastline, you will find a region of extraordinary wealth, that starts by Tejo Falls and extends from Carcavelos Beach to Guincho Beach, with the backdrop of the Sintra-Cascais Natural Park in all its splendor. Because there is a view for each person, the gentleness of the Cascais bay, contrasts with the force of the ocean at Guincho Beach, offering whoever passes by, images of rare beauty and unforgettable moments.

Encompassing Estoril Coast like a fortress, Sintra-Cascais Natural Park, World Heritage according to UNESCO, reveals itself as one of the world's most impressive locations due to its biodiversity, known for its micro-climate, wide range of landscapes, flora and fauna. A little to the north of the region, Mafra encompasses a rural landscape of an agricultural region that maintains old-fashioned traditions.

Besides all the natural wealth, heritage and cultural events, Estoril has throughout its region, a group of infrastructures that can host the widest variety of activities and promote the widest range of events. The transportation network allows you total access and freedom of choice. Estoril Coast also has an irresistible point of attraction, right next door. Located just a few kilometers away at just a 30 minute drive by car or bus, Lisbon is one of Europe's oldest and most interesting capitals, with everything included in terms of environment, commerce, entertainment and culture.
