

A NOFAS-UK CONFERENCE

CHILDREN AFFECTED BY ALCOHOL

CPD (5.5) Accredited Conference

Friday 9th February 2007

BRUNEI GALLERY, 10 Thornhaugh Street, London WC1H 0XG

Finding Links and Support for Children with

ADHD, Learning Difficulties, Fetal Alcohol Syndrome, Behavioural Problems and Other Special Needs

This Conference is a response to the growing needs of people that care for and work with children and adults whose mental and physical health was in some way affected by prenatal alcohol exposure. Prenatal exposure to alcohol can cause learning disabilities; hyperactivity; attention and memory deficits; inability to manage anger; difficulties with problem solving; and prenatal and postnatal growth deficiencies.

Conference is for:

Parents, Foster Carers, Social Workers, Teachers, SENCO's, Psychologists, Doctors, Alcohol Organisations, Drug Abuse Specialists, Nurses, Disability Organisations, Midwives, Juvenile Justice System Workers, Therapists, Counsellors and Students.

Come to:

- Hear the stories of parents, carers and medical professionals who will share their ideas on how to raise and support children with alcohol related disabilities.
- Learn what strategies and techniques have proved to be the most effective for children affected and those who care for them on a day-to-day basis.
- Hear from young adults with alcohol related disabilities.
