## Politics, Policy and Practice

### AIM OF MODULE

In this module you will analyse the key political and policy initiatives in health, social care & independent sectors and evaluate the impact of changes and developments in political theories and policy initiatives aimed at improving the lives of people in society. This will lead to new insights into your own professional practice.

### OVERVIEW OF MODULE

- Key political initiatives,
- Legislative developments,
- Impact of political initiatives,
- Policy identification,
- Policy review,
- Policy impact,
- Reflection on professional practice,
- Developments in professional practice,
- Changing trends in professional practice and future developments in professional practice,
- National and international contexts.

### WHAT ARE THE LEARNING OUTCOMES FOR THIS MODULE?

- Critically analyse the key political and policy initiatives in health, social care & independent sectors;
- Evaluate the impact of changes and developments in political theories and policy initiatives aimed at improving the lives of people in society;
- Critically analyse the impact of political theories and policy initiatives on professional practice;
- Critically explore the political and policy drivers on caring services from a national and international context;
- Synthesise knowledge and apply new insights to professional practice.

### HOW WILL THE MODULE BE DELIVERED?

Trimester 1 or 2, Blended.

John Napier (1550-1617)
