

Shaun from CHANGE meets the President of Bulgaria

Last night the President of Bulgaria, Rosen Plevneliev, held a reception in honour of Eurochild.

The president confirmed his commitment to the programme of de-institutionalisation in Bulgaria. Shaun Webster, European Project Coordinator from CHANGE, was there and the President shook his hand.

Shaun told the President how pleased he was to be a role model for people with learning disabilities leaving institutions and how pleased he was to be able to be involved in the work to support children and young people with learning disabilities move into the community.

Well done to Shaun and all of CHANGE's Rights of Children Europe Team. If you would like to find out more about our work in Europe please take a look at our website www.changepeople.co.uk or contact anne@change-people.co.uk or telephone 0113 3880011
