

Fast-track learning for you! **Breaking Bad News**

(Links to KSF C1, C2, C5, C6)

If you are caring for anyone as a health or social care worker then you will be delivering bad news on a day-to-day basis.

Bad news is not just about terminal diseases: it is anything which changes how a patient sees their future.

This session will include telling someone that they cannot go home or that their treatment hasn't worked. It will cover not only some of the theoretical models for breaking bad news but also how to break bad news to people with learning disabilities.
