

Fast-track learning for you!

# Cancer & Cancer Treatments

This session will give you an understanding of :-

- **How cancer develops & spreads**
- **How & why cancer treatments work**
- **How this knowledge can be used to support care**

At the end of this session you will be able to:-

- State the difference between normal & cancer cell development & functions
- Understand why all cancers are different & therefore need different treatments
- Recognise the basic staging of cancer, how it occurs & why it is important
- State the key treatments & have a basic understanding of how they work
- Recognise the importance understanding the biological nature of cancer when supporting the person with cancer
