An Introduction to Palliative Care

(Links to KSF: C1; HWB 7)

Palliative care is now a specialist area in its own right and this session will focus on its definition and the broad principles underlying it.

With the End of Life Care Strategy (2008), all areas of health and social care now need to be more aware of what palliative care is all about. Come along to this session to find out more!

Suitable for health or social care students, newly qualified nurses and anyone who would like more information about palliative care.

Learning outcomes for the session:

- Define what palliative care is
- Understand the principles behind palliative care
- Analyse how these principles may apply in practice
